

Privacy Policy

Last updated: 17.08.2024

The goal of this document is to inform users clearly about what information is collected, how and why it is being used in the Nagger App.

1. Information We Collect

- **Personal Information:** When you sign up, you must provide a name, email and password. Your login credentials will be only the email and the password, and the name will be primarily used for addressing in direct communication with you.
- **Cookies:** We use small files called cookies to remember things like your login status and preferences. Every cookie that the Nagger App stores on your machine is required for the functionality of the service. The only **third-party cookies** that can be stored are Google's reCAPTCHA v3 cookies, used for protection against bots and spam. By using the Nagger App, you are allowing the storing of these third-party cookies.
- **Device information:** the application collects data about the device and browser from which you are using the service, such as operating system and browser type. This information is limited and your MAC Address or your device name or model cannot be obtained.

2. How We Use Your Information

- **To Provide the Service:** Personal information (email address and password) is used for account login and storage. Every account has a unique email address, and no two accounts may have the same email. Device information is collected in order to ensure that the application is working properly, and you can manage your devices, associated with your account.
- **For communication purposes:** If there's something important you need to know, like a change in our app or services, an email will be sent to you.

3. Sharing Your Information

- **Third-Party Services:** The Nagger App works with third party services that are required for the application to work properly. These include for example:
 - Amazon AWS for hosting and storing data
 - Nodemailer for sending emails to users
 - Google reCAPTCHA v3

These services can only use your data to enhance the user experience, not for anything else.

- **Legal Requirements:** If there is a legal requirement to share your data (for example, if a court asks for it), we'll comply with the law, but we'll let you know if possible.

4. How Your Information is Protected

- **Encryption:** Your data is encrypted in transit, using HTTPS.
- **Password Protection:** passwords are hashed upon entering the database, which means that neither an administrator nor a potential hacker can see and/or steal your password.

5. Your Rights

- **Access:** You can view and update your password anytime in your account settings.
- **Delete Your Data:** You can use the contact email to request an account deletion.

6. Changes to This Policy

If this privacy policy undergoes any changes, you will be notified with an email. This way, you'll always know what's happening with your data.

7. Contact Us

If you have any questions about this privacy policy or how your data is handled, feel free to contact the developer at nagger.web@gmail.com.
